### ReSiSTant Project at the SICT 2022 Conference

ReSiSTant Project has participated in the SICT 2022 Conference where we have carried out our workshop with the title "Simulations, high resistant nano-coatings development, applications, and new manufacturing processes for future worldwide applications".

Barcelona hosted SICT 2022, one of the most important scientific events of the year in relation to the research and development of new surfaces, interfaces and coatings and the ideal setting to show the advances of Resistant in riblet coating. The event has been a real success thanks to the quality of the speakers and the impact of their talks.
